Building a Better Tomorrow.

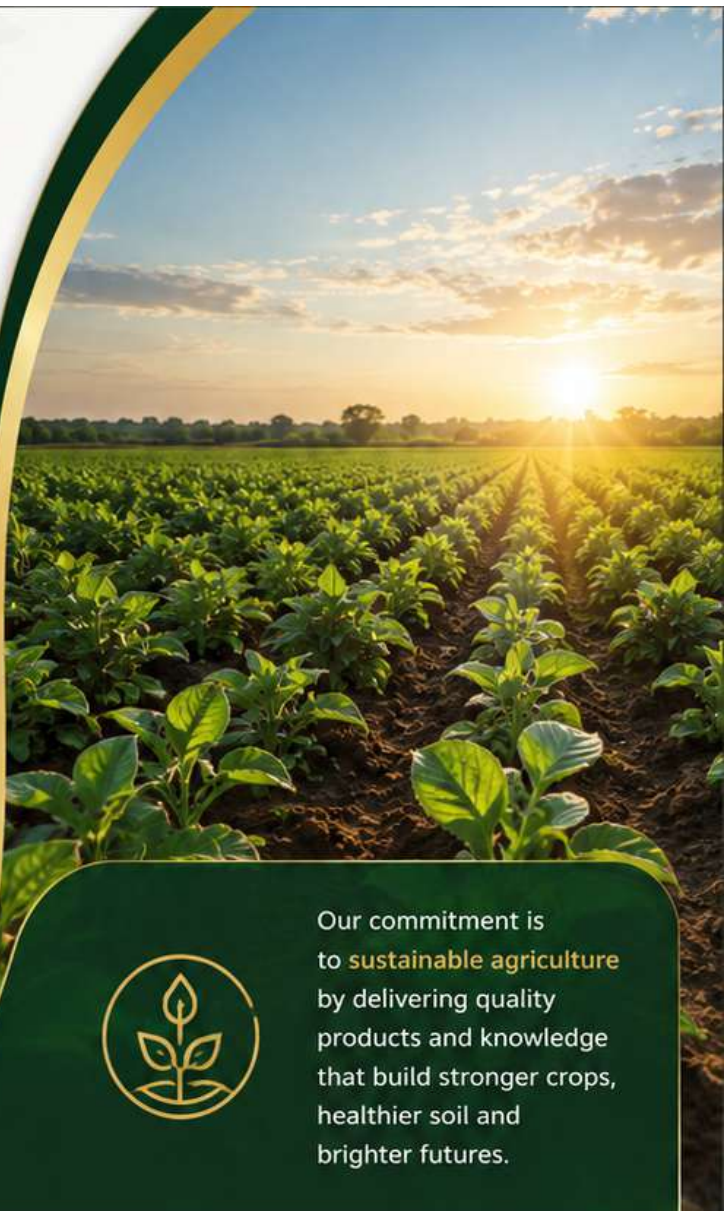

ABOUT GBPL BHARAT

NOURISHING CROPS. ENHANCING YIELDS.

GBPL Bharat is a trusted name in the field of crop nutrition and soil health. As part of the renowned **R&R Group** established in 1990, we bring decades of experience, strong values and a deep understanding of agriculture to deliver advanced plant nutrition solutions that empower farmers and enrich lives.

We are engaged in the import and distribution of high-quality fertilizers, water soluble fertilizers, micronutrients and specialty plant nutrition products sourced from globally reputed manufacturers.

Our mission is simple – to provide innovative, effective and sustainable solutions that improve soil health, enhance crop productivity and contribute to a greener, prosperous tomorrow.

Our commitment is to **sustainable agriculture** by delivering quality products and knowledge that build stronger crops, healthier soil and brighter futures.

QUALITY ASSURED

We ensure premium quality products that meet international standards and FCO requirements.

SCIENCE DRIVEN

Our solutions are backed by research and designed to deliver measurable results in the field.

FARMER FOCUSED

We work hand-in-hand with farmers to understand their needs and provide the right nutrition at the right time.

GLOBAL SOURCING

We partner with reputed global manufacturers to bring the best nutrition to India.

TRUST & INTEGRITY

Built on strong relationships, transparency and an uncompromising commitment to trust.

ISO
9001:2015
CERTIFIED COMPANY

STRONG NETWORK
PAN INDIA
Reliable Supply.
Timely Delivery.

OUR PURPOSE

NOURISHING CROPS. ENHANCING YIELDS.

At **GBPL Bharat**, we believe that better nutrition leads to better crops, stronger farmers and a stronger nation.

Our science-backed crop nutrition solutions are designed to improve soil health, enhance nutrient uptake and maximize yield potential in every season.

Healthy Soil.
Balanced Nutrition.
Higher Productivity.
Sustainable Future.

WHY CHOOSE GBPL BHARAT?

QUALITY YOU CAN TRUST

Sourced from globally reputed manufacturers and compliant with international standards.

SCIENCE BACKED SOLUTIONS

Advanced formulations that ensure superior nutrient availability and better crop performance.

ENHANCED CROP PERFORMANCE

Balanced nutrition for stronger growth, higher yields and improved produce quality.

SAFE & EFFECTIVE

FCO compliant products ensuring safety, reliability and consistent results.

AGRONOMIC SUPPORT

Expert guidance and technical support at every stage of crop growth.

RELIABLE SUPPLY CHAIN

Timely delivery and efficient distribution across India.

SUSTAINABLE APPROACH

Committed to soil health and sustainable agriculture for a greener tomorrow.

PARTNER IN PROGRESS

Building long-term relationships with farmers, dealers and partners.

OUR PROMISE TO FARMERS

Better Nutrition
for Every Crop

Higher Yields
& Better Quality

Increased Profit
& Prosperity

A Healthier Soil
for Future Generations

THE SCIENCE BEHIND BETTER NUTRITION

Plants need the right balance of nutrients at the right time. Our comprehensive range of fertilizers and micronutrients ensures complete and balanced nutrition from root to harvest.

BALANCED NUTRITION

Essential nutrients for optimal growth and development.

HEALTHY SOIL BETTER ROOTS

Improves soil structure, microbial activity and root development.

HIGHER YIELD BETTER QUALITY

Enhanced nutrient uptake for higher yield and quality.

SUSTAINABLE FUTURE

Responsible solutions for sustainable agriculture.

COMPLETE PLANT NUTRITION FOR EVERY STAGE

MACRO NUTRIENTS The Primary Essentials

Required in larger quantities for strong growth, development and higher yields.

- Nitrogen (N)
- Phosphorus (P)
- Potassium (K)

Builds strong structure, promotes growth and increases yield potential.

SECONDARY NUTRIENTS The Supports

Essential for enzyme activation, chlorophyll formation and overall plant functions.

- Calcium (Ca)
- Magnesium (Mg)
- Sulphur (S)

Strengthens plant metabolism and improves stress tolerance.

MICRONUTRIENTS The Micron Essentials

Needed in small amounts but play a vital role in plant health and productivity.

- Zinc (Zn)
- Iron (Fe)
- Boron (B)
- Manganese (Mn)
- Copper (Cu)
- & More

Enhances nutrient utilization, improves quality and boosts plant immunity.

“Balanced nutrition is the key to healthy crops and a prosperous future.”

OUR PRODUCT PORTFOLIO

A wide range of high-quality plant nutrition products formulated to improve soil health, enhance crop productivity and maximize yields.

SCIENCE
DRIVEN

QUALITY
ASSURED

TRUSTED BY
FARMERS

SUSTAINABLE
SOLUTIONS

Our comprehensive portfolio caters to all crop needs from root to harvest.

WATER SOLUBLE FERTILIZERS

100% soluble fertilizers for fertigation and foliar application ensuring quick and effective nutrient uptake.

- ✔ High purity
- ✔ Quick absorption
- ✔ Suitable for all crops
- ✔ Improves yield & quality

MICRONUTRIENT FERTILIZERS

Essential micronutrients to prevent deficiencies and ensure healthy growth & maximum productivity.

- ✔ Chelated & Sulphate forms
- ✔ Improves plant health
- ✔ Enhances nutrient uptake
- ✔ Corrects deficiencies

SPECIALTY PLANT NUTRITION

Advanced formulations to improve crop performance, quality and stress tolerance naturally.

- ✔ Targeted solutions
- ✔ Optimizes crop growth
- ✔ Enhances quality
- ✔ Better returns

SOIL HEALTH SOLUTIONS

Products that improve soil fertility, structure and microbial activity for long-term sustainability.

- ✔ Improves soil structure
- ✔ Increases organic activity
- ✔ Better water retention
- ✔ Sustainable productivity

NUTRIBOOST RANGE

Special formulation range designed to boost crop growth, increase yield and quality naturally.

- ✔ Growth promotion
- ✔ Yield enhancement
- ✔ Quality improvement
- ✔ Better profitability

OUR COMMITMENT

We are committed to deliver premium quality products and innovative solutions that build healthier soils, stronger crops and a prosperous farming community.

OUR PRODUCT CATEGORIES

Complete Nutrition.
Complete Growth.

GBPL Bharat offers a comprehensive range of plant nutrition solutions to support every stage of crop growth. Our products are formulated with precision, backed by science and trusted by farmers across India.

NOURISHING CROPS.
ENHANCING YIELDS.

Our diverse product portfolio is designed to meet the evolving needs of modern agriculture and deliver consistent results.

WATER SOLUBLE FERTILIZERS

- High purity and 100% water soluble
- Quick and complete nutrient uptake
- Suitable for fertigation and foliar application
- Enhances growth and yield

MICRONUTRIENT FERTILIZERS

- Essential micronutrients to prevent deficiencies
- Improves crop health and quality
- Chelated and sulphate forms
- Better absorption and efficiency

SPECIALTY PLANT NUTRITION

- Advanced formulations for targeted nutrition
- Boosts crop performance and stress tolerance
- Improves quality and enhances yield
- Science-backed solutions

SOIL HEALTH SOLUTIONS

- Improves soil structure and fertility
- Enhances microbial activity
- Better water retention and aeration
- Sustainable soil management

NUTRIBOOST RANGE

- Unique blend of nutrients and boosters
- Enhances root development
- Increases crop vigor and productivity
- Better returns for farmers

ONE GOAL.
BETTER CROPS.
A BETTER FUTURE.

Higher Yields
Better Quality

Stronger Plants
Healthier Soil

Higher Returns
For Farmers

Sustainable Agriculture
For Generations

WATER SOLUBLE FERTILIZERS

100% SOLUBLE. 100% EFFECTIVE.

Our water soluble fertilizers are high purity, free flowing crystalline formulations designed for fertigation and foliar application. They dissolve instantly, ensuring quick nutrient uptake and visible results.

100% SOLUBLE

Instant and complete solubility without residue.

HIGH PURITY

Premium quality raw materials for superior performance.

FAST ABSORPTION

Quick nutrient uptake for faster and visible results.

CROP SAFE

Safe for crops when used as recommended.

Designed for modern agriculture to improve yield, quality and profitability.

OUR RANGE

NPK 19:19:19	MAP 12:61:00	MKP 00:52:34	NPK 13:40:13	NPK 00:00:50	CALCIUM NITRATE
					
- Balanced formula for all round crop nutrition. - Promotes overall growth - Improves yield & quality - Suitable for all crops - Fertigation & foliar use	- High phosphorus for strong root development. - Enhances root growth - Improves flowering - Better early vigor - Ideal for all crops	- Ideal for flowering, fruiting & quality. - Boosts flowering & fruiting - Improves fruit size & color - Increases sugar content - Enhances crop quality	- High phosphorus for better development. - Encourages root growth - Improves plant strength - Promotes uniform growth - Suitable for fertigation	- High potassium for quality & stress tolerance. - Improves fruit quality - Enhances stress tolerance - Better shelf life - Increases yield	- Essential calcium for strong cell wall & quality. - Improves cell structure - Prevents physiological disorders - Enhances shelf life - Ideal for vegetables, fruits & ornamentals.

APPLICATION METHODS

FERTIGATION

Dissolve and apply through drip or irrigation system.

FOLIAR SPRAY

Quick absorption through leaves for fast results.

SOIL APPLICATION

Helps in balanced nutrition and better productivity.

THE RIGHT NUTRITION AT THE RIGHT TIME DELIVERS THE BEST RESULTS.

MICRONUTRIENT SOLUTIONS

Small in Amount. Big in Impact.

Micronutrients are essential for plant growth, enzyme activation and chlorophyll formation. Our high quality micronutrient fertilizers help prevent deficiencies, improve crop health and maximize productivity.

PREVENTS DEFICIENCIES

Helps correct and prevent micronutrient deficiencies.

ENHANCES PLANT HEALTH

Improves photosynthesis, enzyme activity and overall plant vigor.

HIGHER YIELDS & BETTER QUALITY

Better flowering, fruit set and grain filling for higher yields.

IMPROVES RESILIENCE

Strengthens plants against stress and unfavorable conditions.

ESSENTIAL NUTRITION FOR STRONGER PLANTS AND BETTER YIELDS.

Balanced micronutrients lead to healthier crops, improved quality and greater returns.

OUR MICRONUTRIENT RANGE

ZINC SULPHATE HEPTAHYDRATE

- Essential for enzyme activation and protein synthesis.
- Improves growth and chlorophyll formation.
- Helps in pollen formation and seed development.
- Corrects Zinc deficiency in all crops.

Available Packaging
1 kg | 5 kg | 25 kg

BORON (ETIDRONATE)

- Essential for cell wall formation and growth.
- Improves flowering, fruit set and seed development.
- Enhances sugar movement and quality of produce.
- Prevents Boron deficiency disorders.

Available Packaging
1 kg | 5 kg | 25 kg

MAGNESIUM SULPHATE

- Source of Magnesium and Sulphur.
- Essential for chlorophyll and photosynthesis.
- Improves nutrient utilization and crop quality.
- Helps in oil content and protein formation.

Available Packaging
1 kg | 5 kg | 25 kg

MANGANESE SULPHATE

- Helps in enzyme activation and photosynthesis.
- Aids in nitrogen metabolism and protein synthesis.
- Improves root development and plant vigor.
- Prevents Manganese deficiency.

Available Packaging
1 kg | 5 kg | 25 kg

COPPER SULPHATE

- Essential for enzyme activation and lignin formation.
- Improves disease resistance and plant strength.
- Enhances chlorophyll formation and yield.
- Prevents Copper deficiency.

Available Packaging
1 kg | 5 kg | 25 kg

DEFICIENCY SHOWS. NUTRITION GROWS.

ZINC DEFICIENCY

Yellowing between veins and stunted growth.

BORON DEFICIENCY

Poor flowering, fruit drop and hollow stems.

MAGNESIUM DEFICIENCY

Yellowing of older leaves from edges inward.

MANGANESE DEFICIENCY

Yellow speckles and interveinal chlorosis.

COPPER DEFICIENCY

Wilting, dieback and reduced crop vitality.

GOOD NUTRITION TODAY,
PROSPERITY TOMORROW.

NUTRIBOOST RANGE

Special Nutrition. Superior Results.

The Nutriboost range is specially formulated to provide targeted nutrition that enhances crop growth, improves stress tolerance and maximizes yield and quality naturally.

TARGETED NUTRITION

Specialized formulations designed for specific crop stages and needs.

ENHANCED PERFORMANCE

Improves growth, quality, and resilience against stress.

HIGHER YIELDS BETTER RETURNS

Better crop productivity leads to increased profitability.

NATURAL & SAFE

Environment friendly solutions for sustainable agriculture.

BOOST GROWTH. BUILD STRENGTH. MAXIMIZE YIELD.

Nutriboost range provides the extra edge your crops need to perform at their best.

OUR NUTRIBOOST PRODUCTS

NUTRIBOOST GROW

Promotes vigorous vegetative growth and strong root development.

Key Benefits

- Enhances root growth
- Increases plant vigor
- Improves nutrient uptake
- Prepares crop for higher yield

NUTRIBOOST FLOWER

Encourages abundant flower formation and improves fruit set.

Key Benefits

- Increases flowering
- Improves fruit set
- Reduces flower drop
- Enhances early yield

NUTRIBOOST FRUIT

Supports fruit development, size, and overall quality of produce.

Key Benefits

- Improves fruit size
- Enhances color & quality
- Increases sugar content
- Better shelf life

NUTRIBOOST YIELD

Improves overall yield potential and optimizes crop performance.

Key Benefits

- Maximizes yield potential
- Improves nutrient efficiency
- Strengthens plant health
- Better harvest quality

NUTRIBOOST STRESS

Helps crops withstand abiotic stress and environmental challenges.

Key Benefits

- Reduces stress impact
- Improves tolerance
- Supports recovery & growth
- Stabilizes yield under stress

OUR COMPLETE PRODUCT RANGE

A complete portfolio of premium quality fertilizers, micronutrients and specialty solutions to meet every crop need.

INORGANIC SALTS

- ☛ ZINC SULPHATE HEPTA
- ☛ ZINC SULPHATE MONO
- ☛ MANGANESE SULPHATE
- ☛ MAGNESIUM SULPHATE
- ☛ COPPER SULPHATE (POWDER & CRYSTAL)
- ☛ POTASSIUM NITRATE POWDER
- ☛ POTASSIUM NITRATE CRYSTALS
- ☛ MIX MICRONUTRIENTS (ALL GRADES)
- ☛ BORON 10.5%
- ☛ BORON 20%

FIREWORK CHEMICALS

- ☛ POTASSIUM NITRATE POWDER
- ☛ POTASSIUM NITRATE CRYSTALS
- ☛ ZINC SULPHATE HEPTA
- ☛ ZINC SULPHATE MONO
- ☛ MANGANESE SULPHATE
- ☛ MAGNESIUM SULPHATE
- ☛ COPPER SULPHATE (POWDER & CRYSTAL)
- ☛ MIX MICRONUTRIENTS (ALL GRADES)
- ☛ BORON 10.5%
- ☛ BORON 20%

PLANT GROWTH PROMOTERS

- ☛ POTASSIUM HUMATE
- ☛ HUMIC AMINO SHINY BALL
- ☛ AMINO ACID POWDER 50%
- ☛ AMINO ACID POWDER 80%
- ☛ SEAWEED EXTRACT POWDER
- ☛ FULVIC ACID
- ☛ GREEN SEAWEED POWDER
- ☛ GREEN SEAWEED LIQUID

CHELATED (EDTA)

- ☛ ZINC CHELATED 12% (EDTA)
- ☛ FE (IRON) CHELATED 12% (EDTA)
- ☛ COPPER CHELATED 12% (EDTA)
- ☛ MAGNESIUM CHELATED 6% (EDTA)
- ☛ CALCIUM CHELATED 10% (EDTA)
- ☛ MANGANESE CHELATED 12% (EDTA)
- ☛ MIX MICRONUTRIENTS CHELATED (EDTA)

TECHNICAL GRADE UREA

Used in production of water-soluble fertilizers.

It is used in dyes and pigment industries.

Used in cattle feed.

Used for manufacturing of Urea Formaldehyde resin.

AGRI & FARM SOLUTIONS

- ☛ SEED SOLUTIONS
- ☛ SOIL & PLANT HEALTH SOLUTIONS
- ☛ CROP PROTECTION SOLUTIONS
- ☛ FARM & IRRIGATION SOLUTIONS
- ☛ POST HARVEST & STORAGE SOLUTIONS
- ☛ FARM EQUIPMENTS
